Dear Petri:

On behalf of the International Trade and Finance Association, I wish to express a sincere thank you for your support of the IT&FA Thirteenth International Conference.

The conference was indeed a great success, both organizationally and academically. We greatly appreciated the student participation. Your hard work assisting with overall arrangements during the conference, especially with IT technical support, made it one all participants will long remember.

Thank you again for your support and interest in the International Trade and Finance Association, and for making our stay in Vaasa a memorable one.

Sincerely,

**Khosrow Fatemi**  
Executive Vice President
