TESTIMONIAL

Petri Pekkarinen has been engaged by Vaasa Polytechnic as a Project Worker in the "Exploiting Mobile-technology in Education" –project for the period, 1 April 2003 to 31 December 2003.

The project was carried out in cooperation with the Vaasa University and the Swedish Polytechnic, Finland. The aim of the project was to build a wireless network in the Palosaari campus area and create possibilities for lecturers to utilize mobile services to support teaching.

Petri's tasks included designing and maintaining project's website as well documenting and publishing project data. Tasks required understanding wireless mobile network – technical and educational concept. Petri's role in the project was vital in order to keep up communication between different project parties.

Petri is a good team player and carries out all assignments accurate with high motivation. I can sincerely recommend him for similar tasks. I wish him all the best in the future.
